

MsgMe Community Guidelines

Welcome to MsgMe! To keep conversations comfortable and safe for everyone, we've established the following rules. By using MsgMe you acknowledge and agree to them.

1. Authenticity & Honesty

- **Real profiles.** Users must provide truthful information and use their own photos. Impersonation or misleading content is prohibited.
- **Verification.** For security we may ask for a selfie with a specific hand-gesture to confirm that you own the account.

2. Respectful Communication

- **Consent first.** All interactions must be voluntary and mutual. Unwanted explicit messages, harassment, or intrusive behavior are not allowed.
- **No hate or discrimination.** Hate speech, insults, or discrimination based on race, gender, nationality, religion, disability, or similar characteristics is strictly forbidden.

3. Privacy & Personal Boundaries

- **Personal data.** Do not post or request personal contact details (phone numbers, email addresses, etc.) unless absolutely necessary.
- **Private chats.** Respect the confidentiality of conversations. Forwarding or publishing private messages without the other party's consent is forbidden.

4. Prohibited Content & Activities

- **Illegal activity.** Attempts to involve others in unlawful acts (e.g., drug distribution, human trafficking, prostitution) are strictly banned.
- **Explicit content.** Even with an adult audience, posting explicit content in public profiles or descriptions is not allowed.
- **Spam & advertising.** Mass messaging, intrusive ads, or promoting third-party products/services without MsgMe's permission is prohibited.

5. Fair Use of the Platform

- **One person — one account.** Each user may have only one active account. Duplicate registrations can lead to a ban.
- **In-app payments only.** All financial transactions must be processed through MsgMe. We are not responsible for transfers made outside the platform.

6. Reports & Moderation

- **Report violations.** If you see a rule breach, use the in-app report tool.
- **Enforcement.** MsgMe may remove content, temporarily suspend, or permanently ban accounts that violate these guidelines.

By following these simple principles we can all help create an honest, safe, and enjoyable space for conversation. Thanks for being part of MsgMe!
